## ***Introduction to Incident Command System***

April 13th 2022

SDIS de la Savoie

*This document has been produced with the assistance of the European Union. The contents of this document are the sole responsibility of implementing partner and can in no way be taken to reflect the views of the European Union.*

## History

ICS's history began during the wildfires in California in the 1970s.  
(millions \$ in damage and several deaths)

Local state and federal fire authorities identified many problems :

- Non-standard terminology
- Lack of organizational flexibility to expand and contract
- Non-standard and non-integrated communications
- Lack of consolidated action plans
- Lack of designated facilities

## When ?

**INCIDENT**  
Event requiring  
intervention by  
emergency services  
personnel

## For what ?

**COMMAND**

**CONTROL**

### **INCIDENT COMMAND SYSTEM**

A consistent ,  
standardised, on-site  
management concept

**COORDINATE**

**COMMUNICATE**

- Direct tactical actions
- Implementation of the action plan
- Management of intervention areas

## INCIDENT COMMANDER

- Overall responsibility

- Provide support
- Management of facilities
- Transmission
- Healthcare support
- Food
- Fuel...

- Costs estimate
- Costs validation
- Mobilization of financial means

- Information
- Anticipation
- Risk analysis
- Incident Action plan
- Contact with experts

## Incident commander

### INCIDENT COMMANDER

- Incident commander may have one or more deputies from same agency or from agencies in another jurisdiction
- If the incident grows, the incident commander needs to designate certain command responsibilities to command staff :
  - Public information Officer – provides information to internal and external stakeholders
  - Safety Officer – monitors safety conditions and develops safety protocols
  - Liaison officer – primary contact for agencies supporting the incident

## Operation section

- Operations section has to direct and coordinate all incident tactical operations
- Organization develops as required
- Organization can consist in :
  - Single resources, task forces, strike teams,
  - Staging areas
  - Air operations
  - Sectors, Division, Groups, Branches

## Logistics section

- Logistics section provides services and support to the incident or event
- Six main activities :
  - Communications units
  - Medical Unit
  - Food Unit
  - Supply Unit
  - Facilities Unit
  - Ground support Unit

## Finance section

- Finance/administration section has to monitor incident costs
- Maintain financial records
- Administers procurement contracts
- Performs time recording
- Is able to staff up to four units :
  - Procurement unit (financial matters related to vendor contracts)
  - Time unit (records time for incident personnel and hired equipment)
  - Cost unit (tracks costs, analyses cost data, makes cost estimates)
  - Compensation/claims unit (handles claims for property injuries, damage or fatalities during the incident)

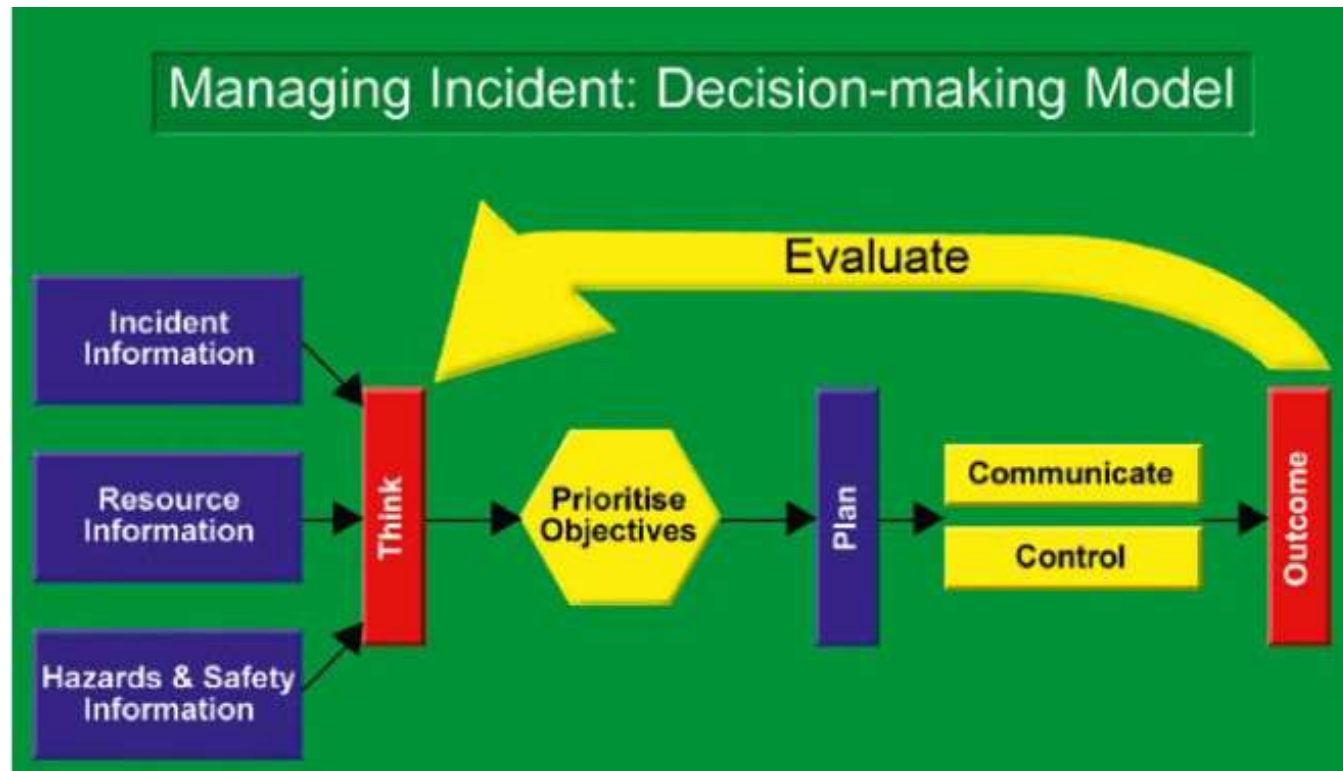

## Planning section

- Planning section maintain resource status
- Maintain situation status
- Prepare Incident Action Plan
- Provide documentation service
- Prepare demobilization plan
- Provide technical specialists / experts
- May be organized into four positions :

- Ressources unit
- Situation Unit
- Documentation Unit
- Demobilization Unit

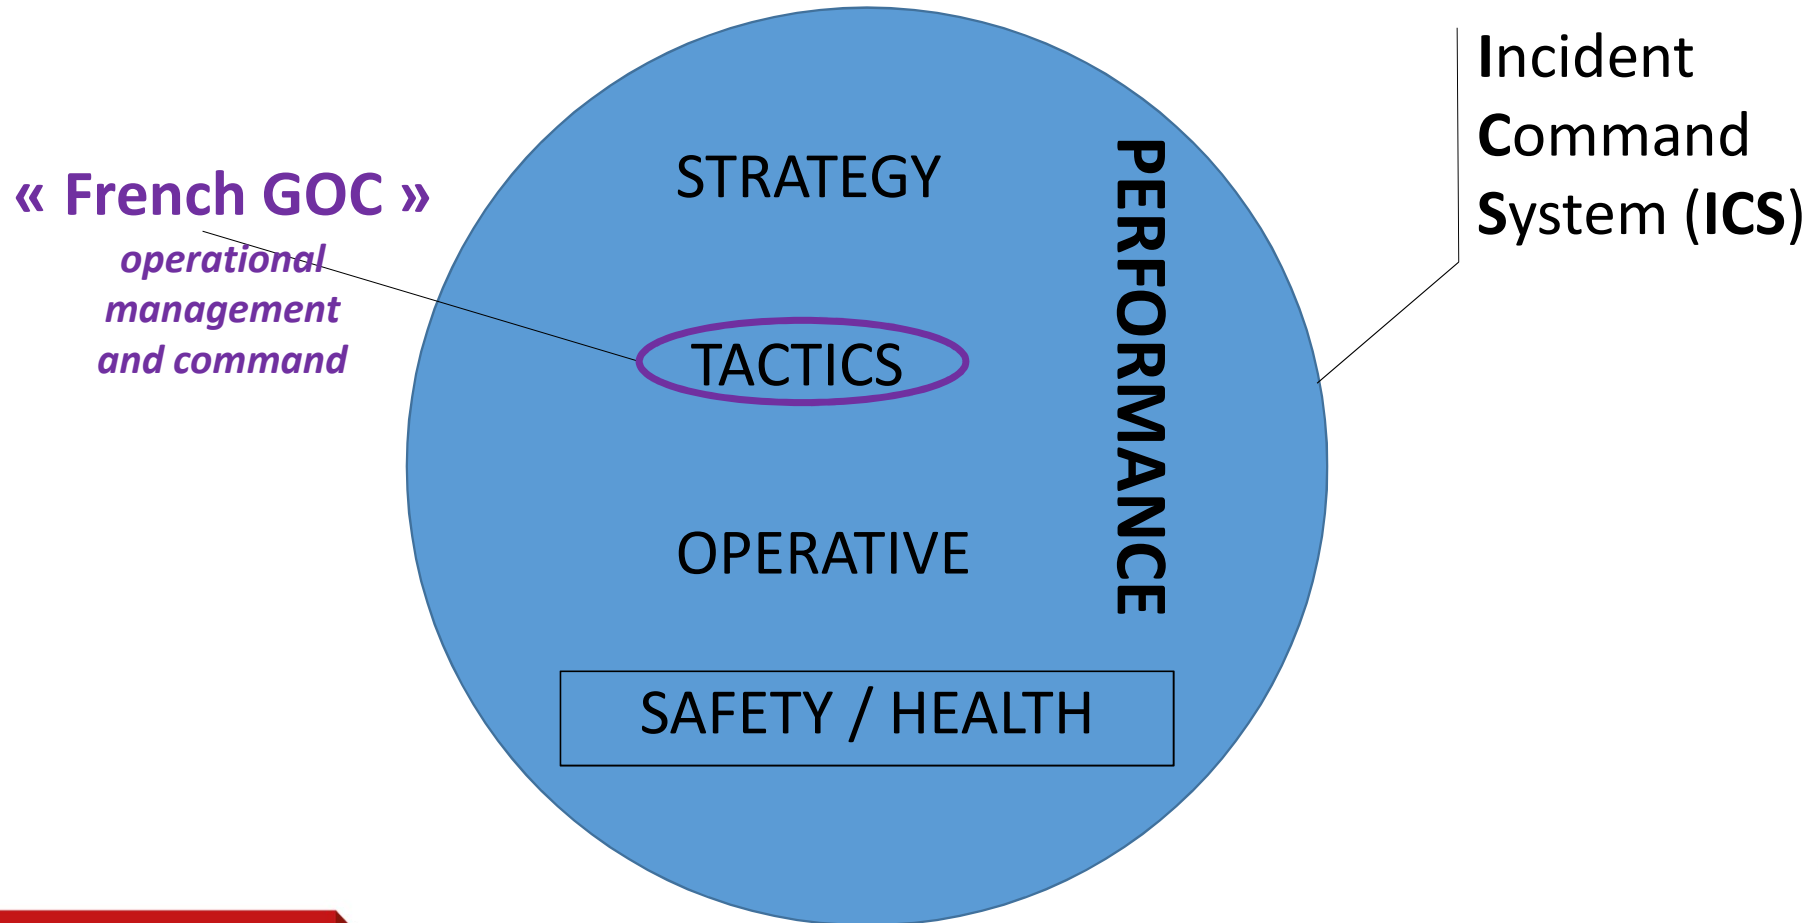

# Incident management by objectives

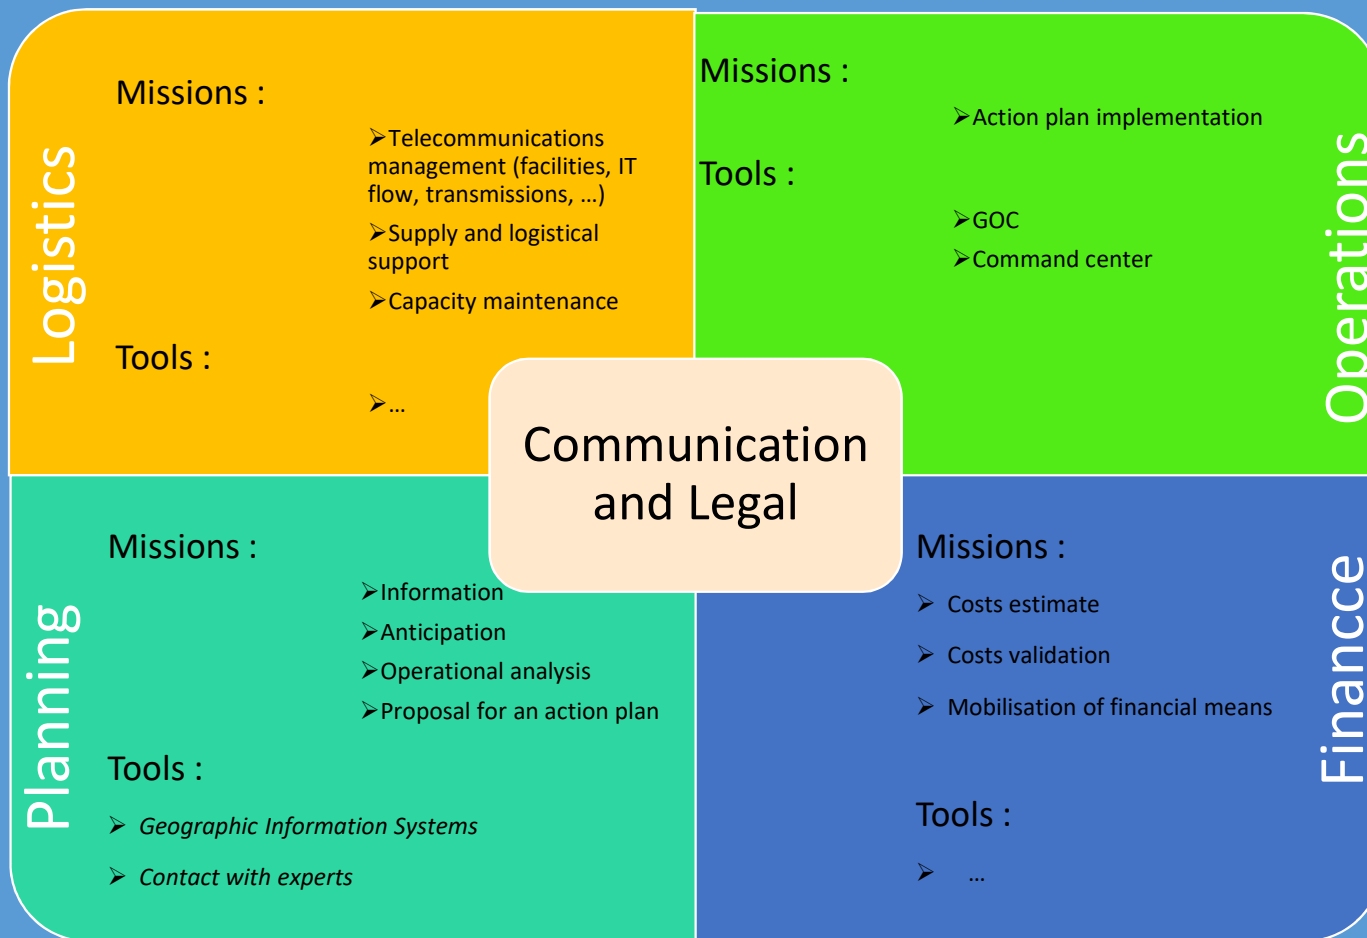

## Conclusion

# DECISION

## Communication and Legal

- Missions :
  - Refereeing
  - Decision
- Tools :
  - Cells of the ICS
- Legal mission :
  - Support and advice
- Missions Communication :
  - Complaints follow-up
  - Development of internal and external communication documents
- Tools :
  - Social networks
  - Intranet, ...
